JUSTHR

PEOPLE, PAYROLL & OPERATIONS

The business does not wait for payday.

Neither should your payroll.

Know what you owe. See what needs approval.
Keep your people operations in view.

A JUSTJAVA TECHNOLOGIES PRODUCT

WHY CHANGE

Your business has grown. Has the way you manage it?

01	**A pay change happens mid-month.**	The answer is still sitting in somebody's spreadsheet.
02	**An employee needs an approval.**	The decision follows a manager across messages and calls.
03	**Leadership wants an answer.**	HR, finance and operations each hold a different piece.

A BETTER OPERATING PICTURE

Three questions leadership should not have to chase.

01 What are we committed to pay?

02 Which decisions are waiting?

03 Who is responsible for the next step?

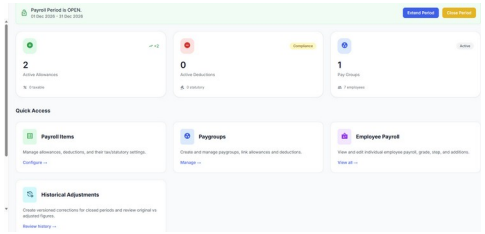

JUSTHR connects the work behind those answers.

JUSTHR

THE PLATFORM

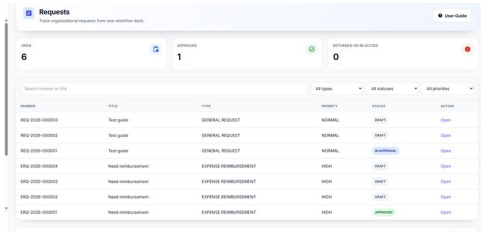

This is JUSTHR.

A working system for the daily decisions that sit between employees, HR, finance and leadership.

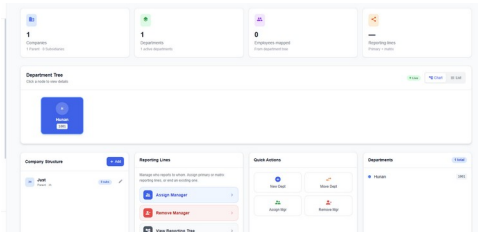

PAYROLL

Live figures and pay structures

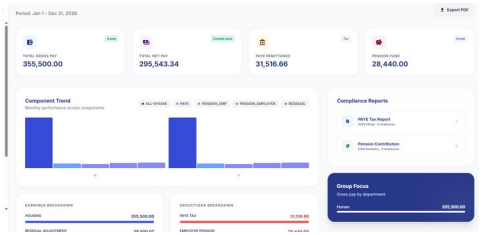

APPROVALS

Requests with clear status

PEOPLE

Roles, teams and reporting

VISIBILITY

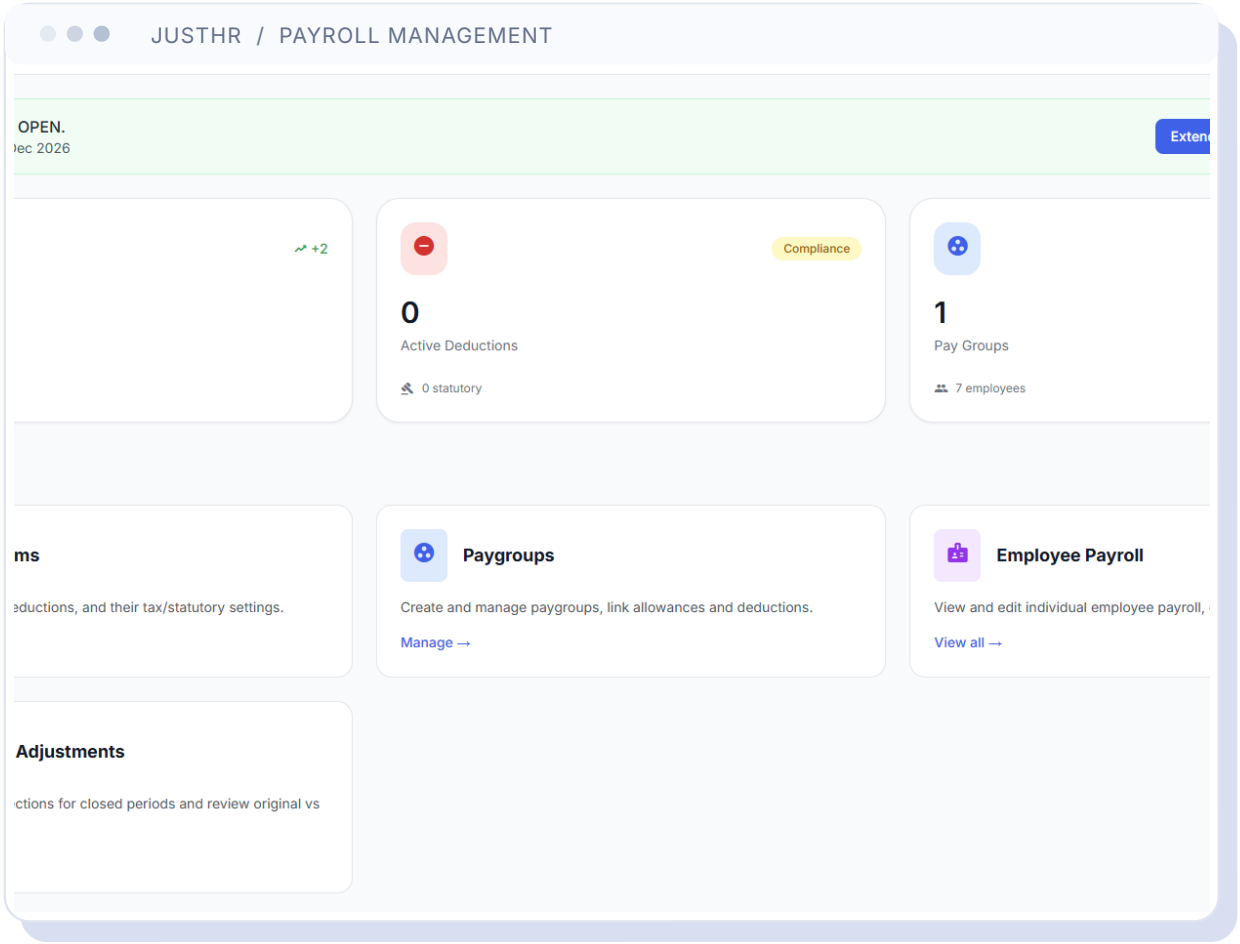

Management and statutory reporting

01 / PAYROLL

See payroll change as the month changes.

JUSTHR recalculates payroll during the open period as pay inputs change.

- **Salary or grade change** — Updated employee figures
- **Allowance or deduction** — Recalculated pay picture
- **Tax and pension settings** — Visible statutory components

PRODUCT SCREEN | ILLUSTRATIVE ACCOUNT DATA

02 / CONTROL BEFORE CLOSE

Closing payroll should be a decision, not a guess.

1

Set up

Pay groups, job grades, tax and pension rules

2

Check

Missing prerequisites block period closure

3

Submit

HR sends the period for finance review

4

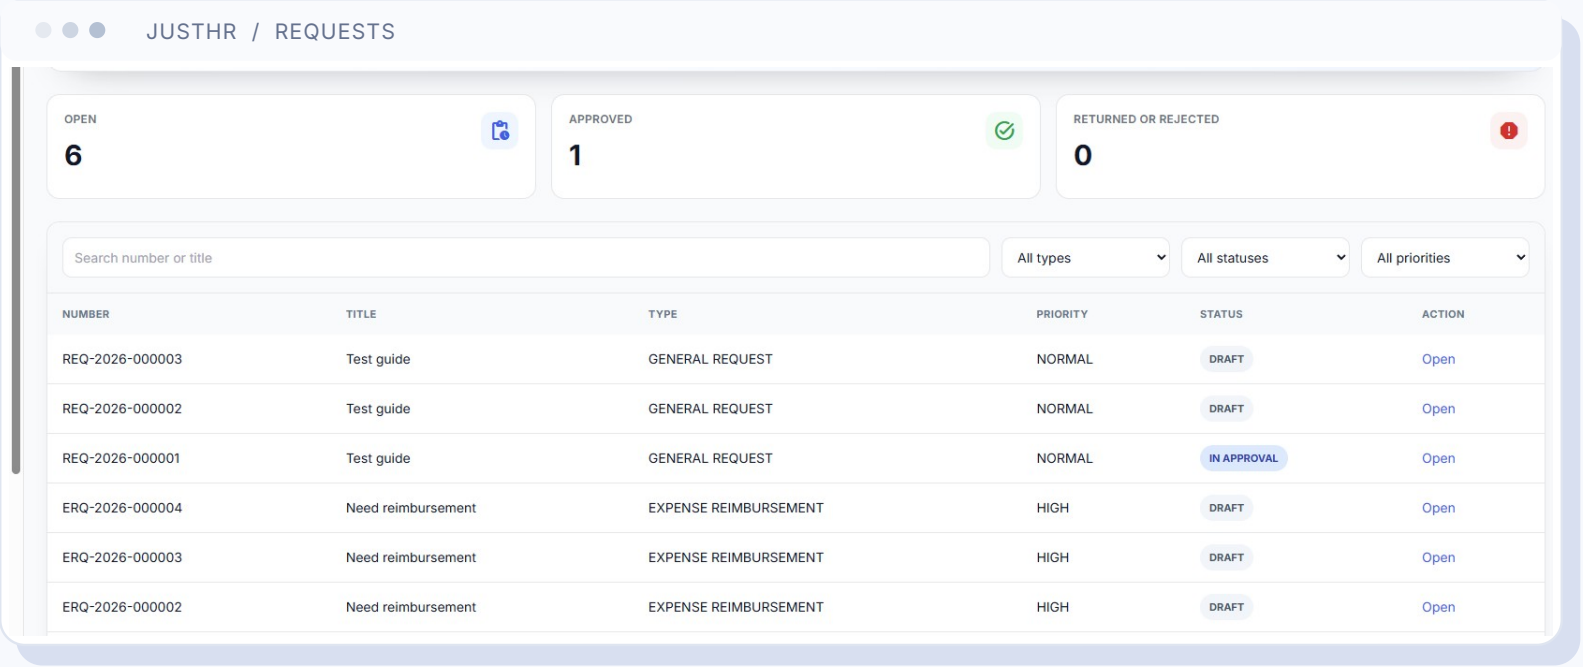

Approve

Finance approves or rejects before close

JUSTHR can stop a close when required records, such as employee bank details, are missing.

03 / REQUESTS AND APPROVALS

An approval should not vanish into someone's inbox.

01 Submit
Staff raise a request

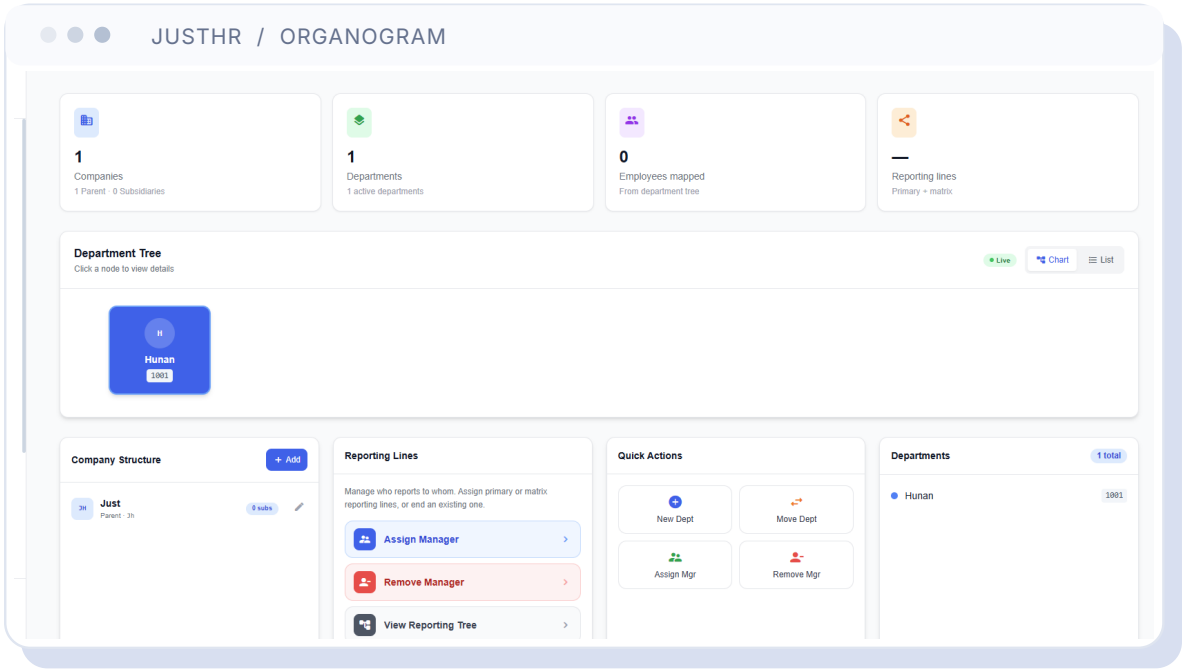

02 Route
To manager or assigned approver

03 Decide
Approve or reject

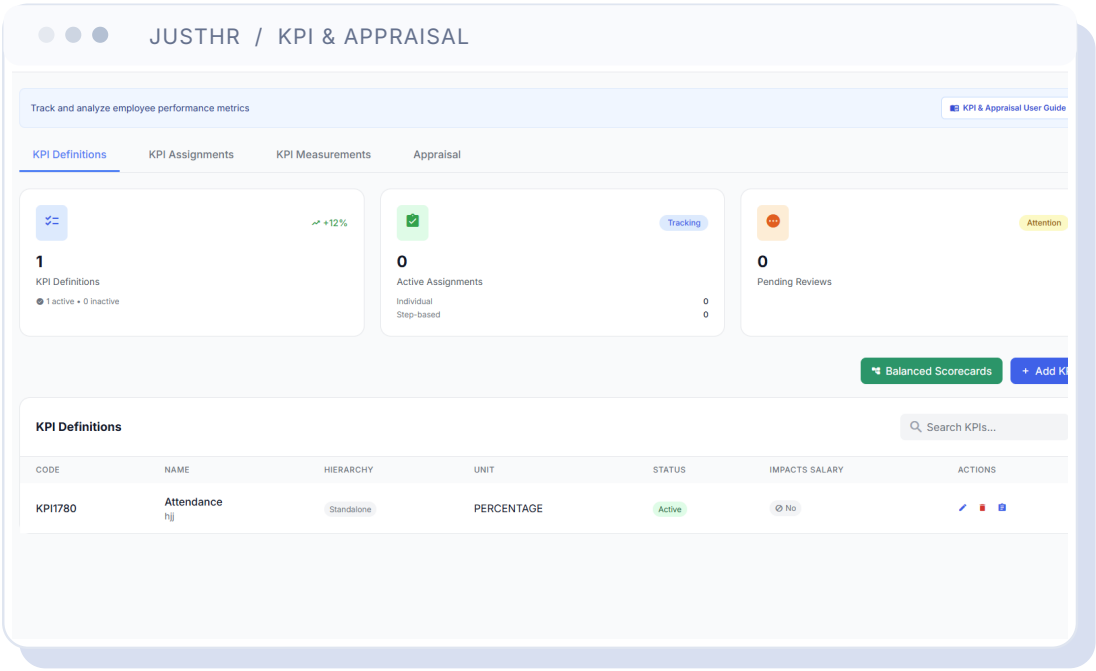

04 Close
Mark fulfilled work complete

04 / TEAMS AND PERFORMANCE

The reporting line and the performance picture, together.

Model departments and reporting lines.

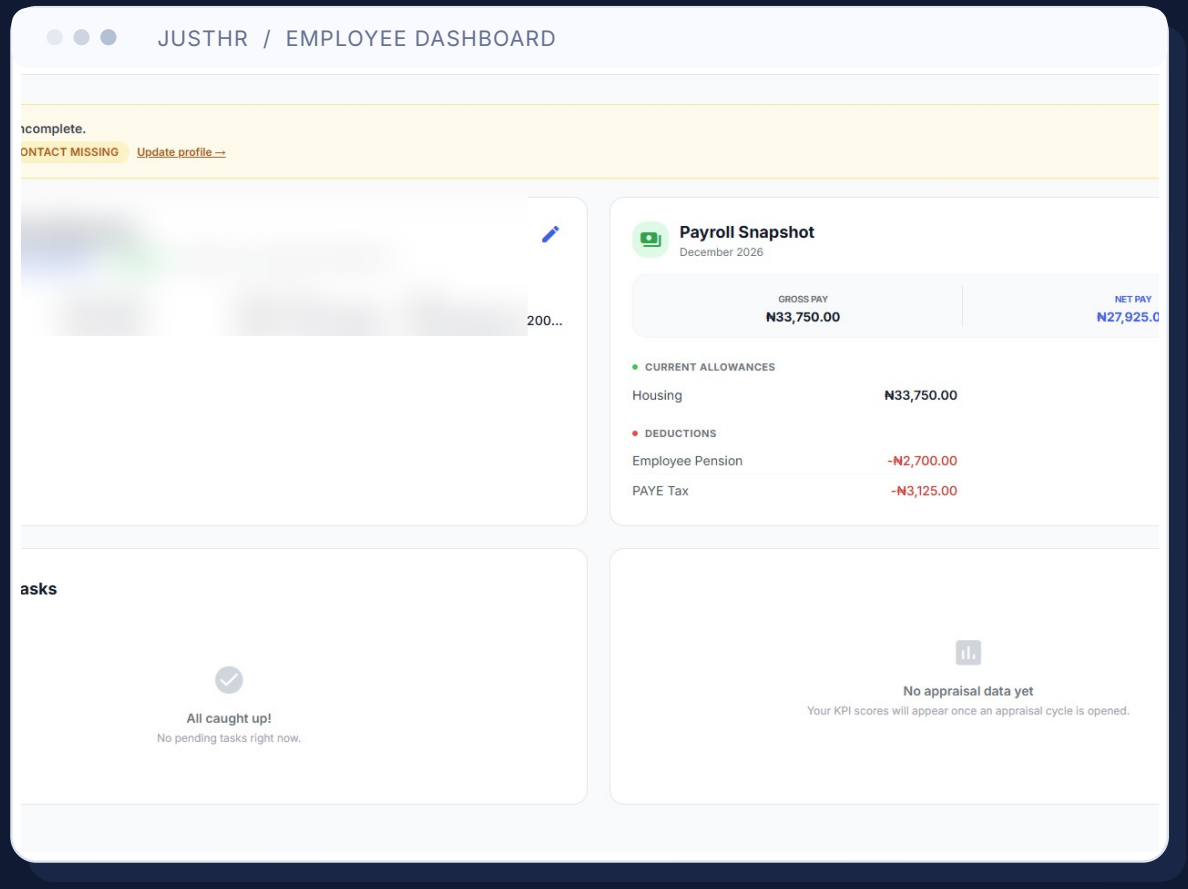

Define KPIs, track assignments and run appraisals.

05 / STAFF SELF SERVICE

Give employees a self-service home.

Staff can find their payslip information, track requests, view performance details and update their records.

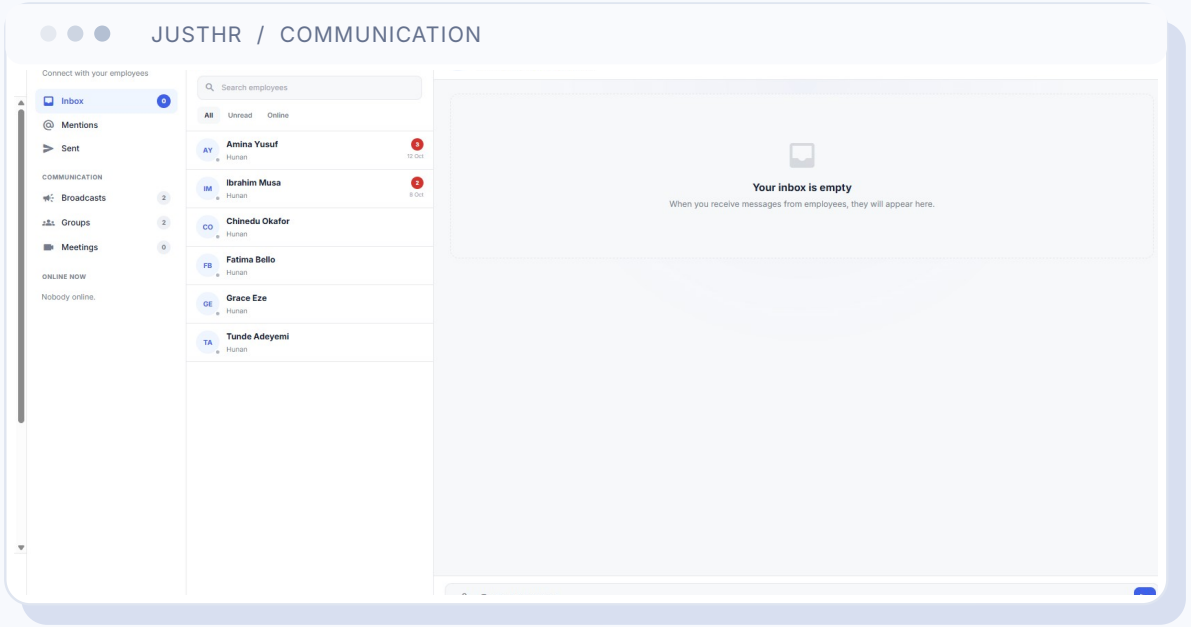

- Payroll and payslips
- Leave and other requests
- Documents and performance

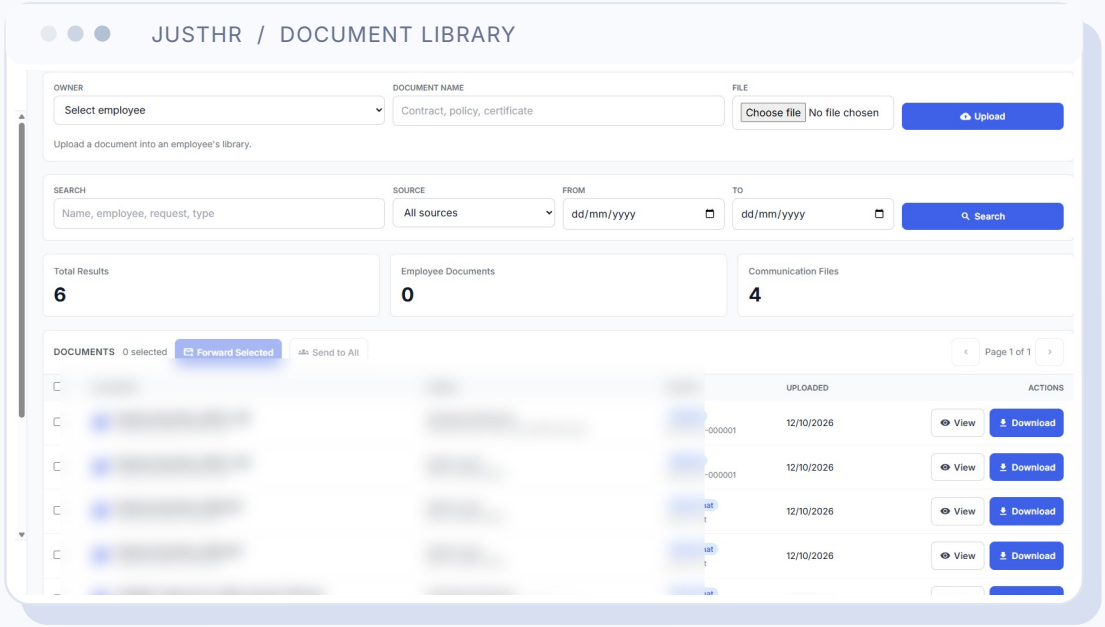

Two distinct entry points: management and employee self-service.

06 / EVERYDAY OPERATIONS

Keep the conversation and the record close.

Messages, groups and broadcasts

Search, preview and retrieve files

07 / BEYOND THE PAY RUN

One place for the work that surrounds employment.

RECRUIT

Job openings, applications and hiring stages

LEAVE

Submission, manager routing and approval decisions

LOANS

Employee loan requests and administration

ASSETS

Catalogued assets and requests for equipment

RECORDS

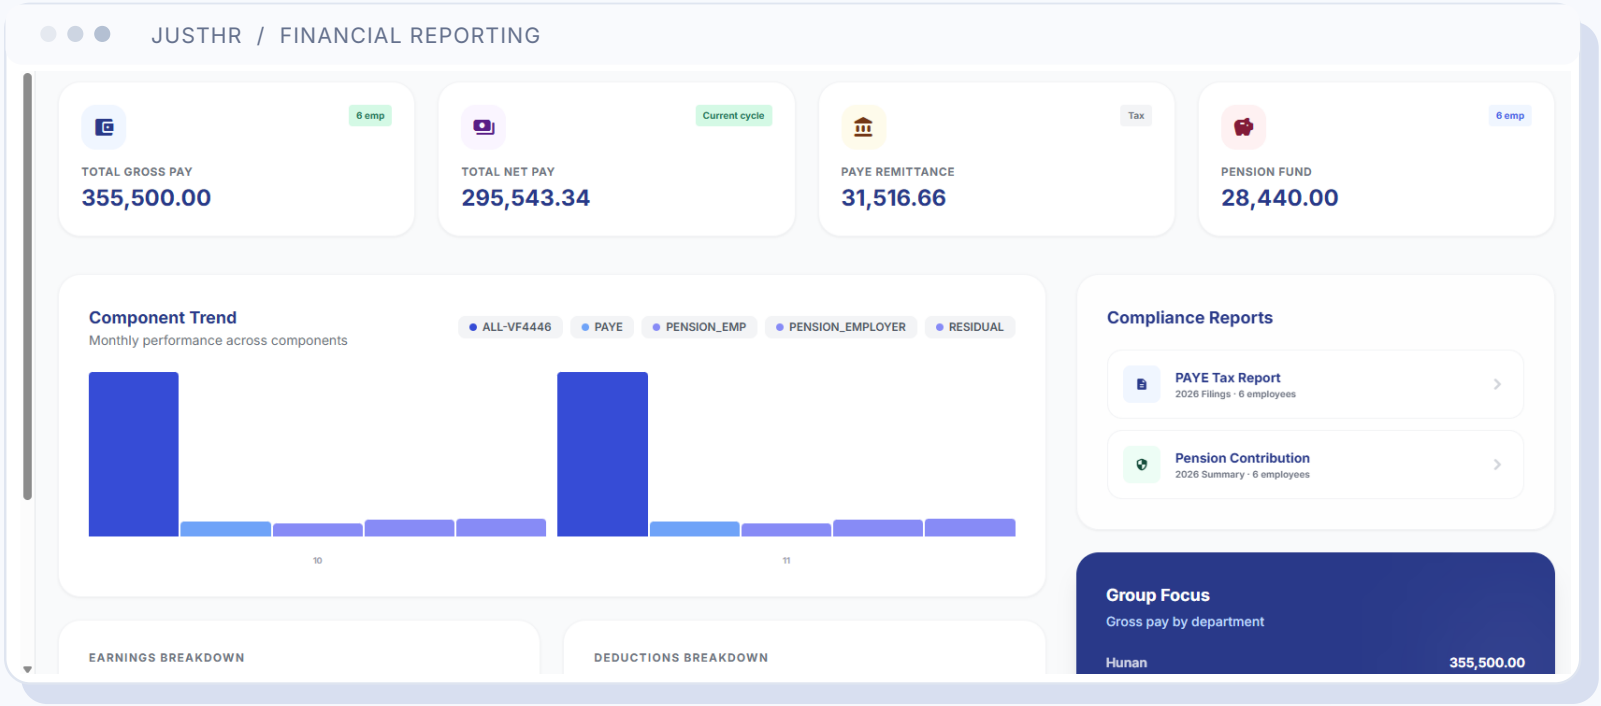

Employee documents, roles and job structures

EXITS

Employee exit workflows and status management

08 / MANAGEMENT VISIBILITY

Decisions need a current picture, not a month-end recap.

Amounts displayed are illustrative test account data.

PAYROLL

Gross pay and net pay in view

STATUTORY

PAYE and pension components

OUTPUT

Report and PDF export views

THE CASE FOR CHANGE

Your business has grown. Your processes can catch up.

WHEN WORK IS SCATTERED	WITH JUSTHR
Payroll is pieced together at close	**Figures recalculate through the period**
Approvals live across messages	**Requests move through defined routes**
Staff information is hard to find	**Employee and document views are centralised**
Leaders ask for another report	**Reporting is available in the platform**

THE INTERNAL BUSINESS CASE

One decision. Four reasons to care.

THE CEO

Clearer control of payroll cost, people decisions and operating visibility.

FINANCE

A review step before payroll close, with pay and statutory figures available.

HR & OPERATIONS

Structured requests, records, reporting lines and employee services.

IT

One platform to evaluate for access, integrations, data handling and support.

A PRACTICAL NEXT STEP

Do not take our word for it. Test your own workflow.

An initial pilot can be scoped around a real team and a manageable set of processes.

01	**Choose the workflow**	One payroll period or a controlled sample, plus two approval types.
02	**Set the checks**	Compare payroll accuracy, approval history, record access and user experience.
03	**Review with decision-makers**	HR, finance and IT assess the results before any wider rollout.

Pilot scope, deployment requirements, data handling and commercial terms are agreed before work begins.

JUSTHR

REQUEST A TAILORED WALKTHROUGH

Bring us your current process. We will put it next to JUSTHR.

See payroll recalculation, approvals, reporting and employee self-service using workflows relevant to your business.
