

Recruitment User Guide

This guide explains how to use the Recruitment module in JustHumanResource, from staff requisition approval through job publishing, candidate applications, interviews, offers, and onboarding handoff.

Audience: HR, Recruiters, Hiring Managers, Finance, Candidates

Module: Recruitment

Updated: August 24, 2026

1. What the Recruitment Module Does

The Recruitment module manages the hiring pipeline after an approved staff requisition. It creates job openings, publishes roles to the Careers page, records applications, guides HR through recruitment workflow stages, manages interviews and offers, and hands accepted candidates over to employee onboarding.

Staff requisition approved

Job opening created

Content prepared

Hiring manager review

Published to Careers

Candidate applies

Screening to offer

Offer accepted

Onboarding starts

2. Access by Role

Role	Access	Main Work
Public Candidate	Careers page (public website)	View published jobs, submit applications, track application status, respond to offers.
HR / Recruiter	Recruitment (on the HR side menu)	Prepare job openings, screen candidates, schedule interviews, create offers, start onboarding.

Role	Access	Main Work
Hiring Manager	Job Opening Review task (assigned task list or Job Opening Detail inside Recruitment)	Review job publication content and approve, return, or cancel publication.
Finance / Offer Approver	Employment Offer Approval task (assigned task list or Application Detail inside Recruitment)	Approve or reject employment offers before they are sent to candidates.
Admin	Recruitment and workflow task pages (authenticated system access)	Support all recruitment workflows and troubleshoot task progression.

3. Key Pages

Page	Purpose
Recruitment Dashboard (Recruitment on the HR side menu)	Shows recent openings, recent applications, and key recruitment counts.
Job Openings (inside Recruitment)	Shows all openings created from approved requisitions.
Job Opening Detail (open a role from Job Openings)	Prepare, review, publish, close, and inspect a job opening.
Applications (inside Recruitment)	Shows the candidate pipeline list.
Application Detail (open a candidate from Applications)	Manage a candidate application, interviews, offers, and onboarding.
Careers (public website)	Shows published roles that are currently open for applications.
Application Status (candidate tracking link)	Allows candidates to view application status and respond to offers.

4. Staff Requisition to Job Opening

1. An employee or authorized user submits a staff requisition from the Requests module.
2. The request follows the configured approval workflow.
3. When the staff requisition is approved, the system automatically creates a recruitment job opening.
4. The new opening appears on Job Openings (inside Recruitment on the HR side menu) with draft status.

Important: Users do not manually create job openings in Recruitment. Openings are created from approved staff requisitions so recruitment remains tied to workforce planning and approvals.

5. HR: Prepare a Job Opening

1. Open Job Openings (inside Recruitment on the HR side menu).
2. Select the draft opening you want to prepare.
3. Enter the publication content:
 - Job description
 - Responsibilities
 - Requirements
 - Preferred qualifications
 - Location and work arrangement
 - Application open and close dates
4. Click **Save and send for review**.

The opening moves to content review and waits for the hiring manager review task.

6. Hiring Manager: Review Publication

1. Open the Job Opening Review task (assigned task list) or open the role from Job Openings (inside Recruitment).
2. Review the role title, position count, publication content, and dates.
3. Choose one action:

- **Approve & publish** makes the job visible on Careers (public website).
- **Return** sends the content back to HR for changes.
- **Cancel** stops the opening workflow.

7. Public Candidate: Apply for a Job

1. Go to Careers (public website).
2. Select a published job from the open opportunities list.
3. Complete the application form with name, email, phone, profile links, and source.
4. Tick the consent checkbox.
5. Submit the application.

After submission, the system displays an application reference and a tracking link. Candidates should keep the tracking link because it is used to view application status and respond to offers.

8. HR: Manage the Candidate Pipeline

Open Applications (inside Recruitment on the HR side menu) and select an application. The Application Detail page shows the candidate, role, current stage, workflow action, interviews, offers, onboarding action, and activity history.

Workflow Stage	Typical HR Action	Available Decisions
Screening	Review candidate information against minimum requirements.	Advance Hold Reject
Assessment	Record assessment result or shortlisting outcome.	Advance Hold Reject
Interview	Schedule interviews and collect scorecards.	Advance Hold Reject
Checks	Complete pre-employment checks.	Advance Hold Reject

Workflow Stage	Typical HR Action	Available Decisions
Offer	Create and send an employment offer after approval.	Declined or candidate response from public link
Pre-employment	Confirm accepted offer and start onboarding.	Start onboarding

9. Schedule Interviews

1. Open the Application Detail page (select the candidate from Applications inside Recruitment).
2. Use the **Schedule interview** form.
3. Enter title, start time, end time, location or meeting link.
4. Enter the coordinator employee ID and panel employee IDs.
5. Click **Schedule**.

The application stage is moved to Interview when an interview is scheduled.

10. Submit Interview Scorecards

1. Open the Application Detail page (select the candidate from Applications inside Recruitment).
2. Find the scheduled interview under **Interviews**.
3. Enter reviewer employee ID, score from 1 to 5, recommendation, and comments.
4. Submit the scorecard.

Only assigned panel members should submit scorecards. When all assigned panel members have submitted, the interview is marked completed.

11. Create, Approve, Send, and Respond to Offers

HR: Create an Offer

1. Open the Application Detail page (select the candidate from Applications inside Recruitment).
2. Use the **Create offer** form.
3. Enter annual gross compensation, currency, job step, pay group, proposed start date, expiry date, and terms.
4. Submit the offer. The offer enters approval.

Approver: Approve or Reject

1. Open the Employment Offer Approval task (assigned task list) or the Application Detail page (inside Recruitment).
2. Review compensation, dates, pay group, job step, and terms.
3. Approve the offer or reject it.

HR: Send Approved Offer

1. After approval, open the Application Detail page (select the candidate from Applications inside Recruitment).
2. Click **Send** on the approved offer.
3. The offer becomes available to the candidate on Application Status (candidate tracking link).

Candidate: Accept or Decline

1. Open Application Status (candidate tracking link).
2. Review the sent offer.
3. Click **Accept offer** or **Decline offer**.

Only the latest sent offer can be answered. Expired offers cannot be accepted.

12. Start Onboarding

1. Confirm the candidate accepted the latest offer.
2. Open the Application Detail page (select the candidate from Applications inside Recruitment).

3. Complete onboarding fields such as department, manager, job step, pay group, groups, and identity details.
4. Click **Start onboarding**.

The system creates an employee onboarding record and updates the application to hired/onboarding status.

13. Close or Fill Openings

1. Open the Job Opening Detail page (select the role from Job Openings inside Recruitment).
2. Use **Close opening** to stop a published or paused opening.
3. When candidates are hired, the filled position count increases.
4. When filled positions reach the number of approved positions, the opening is marked filled.

Closing or filling an opening completes the job-opening workflow.

14. Status Reference

Record	Status	Meaning
Job Opening	DRAFT	Opening was created from an approved requisition and needs publication content.
Job Opening	CONTENT_REVIEW	Opening is waiting for hiring-manager review.
Job Opening	PUBLISHED	Opening is visible on Careers (public website) while the application dates are active.
Job Opening	CLOSED / FILLED / CANCELLED	Opening is no longer accepting applications.
Application	SUBMITTED	Candidate has submitted the application.
Application	IN_PROCESS	Application is moving through screening, assessment, interview, checks, or offer stage.

Record	Status	Meaning
Application	ON_HOLD	Application is paused for later review.
Application	REJECTED	Application has been rejected.
Application	OFFER_ACCEPTED	Candidate accepted a sent offer.
Application	HIRED	Candidate has been converted into employee onboarding.
Offer	IN_APPROVAL	Offer is awaiting approval.
Offer	APPROVED	Offer can be sent to the candidate.
Offer	SENT	Candidate can accept or decline the offer.
Offer	ACCEPTED / DECLINED / EXPIRED / REJECTED	Offer has reached an outcome.

15. Good Operating Practices

- Do not publish incomplete job descriptions.
- Set realistic application closing dates before publishing.
- Keep interview panel employee IDs accurate.
- Create a new offer version instead of editing a sent offer outside the system.
- Start onboarding only after the offer is accepted.
- Close openings that should no longer receive applications.

16. Troubleshooting

Issue	What to Check
No job opening appears after requisition approval	Confirm the request type is Staff Requisition and the request reached Approved status.

Issue	What to Check
Job not visible on Careers	Confirm the opening status is Published, the application open date has started, and the application close date has not passed.
Cannot submit application	Confirm all required fields are completed and candidate consent is checked.
Offer cannot be sent	Confirm the offer status is Approved.
Candidate cannot accept offer	Confirm the offer is the latest version, status is Sent, and expiry date has not passed.
Cannot start onboarding	Confirm an accepted offer exists and required onboarding fields are supplied.

17. End-to-End Checklist

1. Staff requisition approved.
2. Job opening automatically created.
3. HR prepares publication content.
4. Hiring manager approves publication.
5. Job appears on Careers (public website).
6. Candidate submits application and receives reference/tracking link.
7. HR advances candidate through screening, assessment, interview, checks, and offer stages.
8. Interview panel submits scorecards where required.
9. HR creates offer.
10. Approver approves offer.
11. HR sends offer.
12. Candidate accepts offer from tracking page.
13. HR starts onboarding.
14. Opening is closed or automatically filled when approved positions are exhausted.
